四、A. One possible version:

Dear Eric,

How are you? I'm writing to share some thoughts about internet use. I know the internet helps us a lot. For example, we can study through online videos and chat with friends easily. It's very convenient!

However, spending too much time online might cause problems. Last month, I felt dizzy and couldn't focus in class because I stayed up late gaming. Also, my maths scores dropped. Maybe you've had similar experiences?

Here's my advice: Let's make a daily plan together! We can set a timer for 1 hour of study online and 30 minutes for fun. After that, let's play basketball or read books. This way, we stay healthy and keep our grades up.

Hope this helps! Let's try it and talk more tomorrow.

Yours,

Li Hui

四、A. One possible version:

**My invention—a smart umbrella**

My invention is a smart umbrella. It looks like a common umbrella. It's small and convenient to carry.

However, we can use it to do many things. First, there is a camera at the top so that we can use the umbrella to take photos. Second, it has a tiny phone which makes it possible to communicate with others. What's more, it can also play some music for us to relax ourselves. The most amazing thing is that we can use our voice to control the umbrella.

I think my invention is not only useful but also convenient. It will help people live a better life.

五、One possible version:

Good morning, everyone! I'm Li Hui, and today I want to talk about educational exchange because it helps me make friends from different cultures.

First, it greatly improves my English skills. By communicating with foreign teachers and classmates, I become more confident in speaking and writing. In addition, the experience teaches me to solve problems independently. Also, sharing stories about our traditions and daily lives in English makes me feel closer to the world. Educational exchange doesn't just broaden knowledge but also opens hearts.

So, let's take action! Don't miss the chance to grow, learn and connect. Together, we can build a brighter future!

Thank you!
